

## DATACORP Mission Statement

*DATACORP is a dynamic, multi-disciplined organization whose mission is to improve the human condition by empowering clients to use information to its fullest extent.*

*Since DATACORP's inception, our team of researchers has developed innovative research methodologies and reporting systems to better meet the needs of clients. We will continue to develop areas of expertise that will enhance the body of knowledge in the social sciences.*

*Our first responsibility is to our clients who use the services. In order to meet their needs, the work must be both cost-effective and of the highest quality. Our completed projects reflect the pride that we have in our work, and the respect we have for our clients.*
